# You Are Welcome to This Store Whether You Buy or Not

Don't hesitate a moment about stepping into our store and asking to see anything in which you are interested. It makes no difference to us whether you come simply to look about or to buy. The same welcome awaits you. Some people feel that visiting a store implies some sort of obligation to buy. We don't want you to feel that way. People visiting our store help us to get an idea of of the kind of goods to buy—the prices they desire to pay, and a great deal of information that is valuable. Now you can understand why

### It's a Pleasure For Us to Show Goods—Come In

Furthermore, if we get acquainted with each other you will soon learn that our policy is Honest Goods at Honest Prices. We think it better to sell dependable, satisfaction-giving goods rather than inferior goods that can be sold at so-called bargain prices. You get only what you pay for whether you buy from us or from far-away, lunknown concerns. We buy from manufacturers at as low prices as anyone else. Good goods like Jewel Stoves are sold to the trade at one price-just remember that fact; therefore, our prices to you are no higher than others would ask for the same class of merchandise. Our success depends entirely upon how well we please those who patronize us. If we satisfy you, you will come again—if we fail, it's our loss. That is why we work so hard to buy right, sell right and do right.
